Enhance Your Treatments

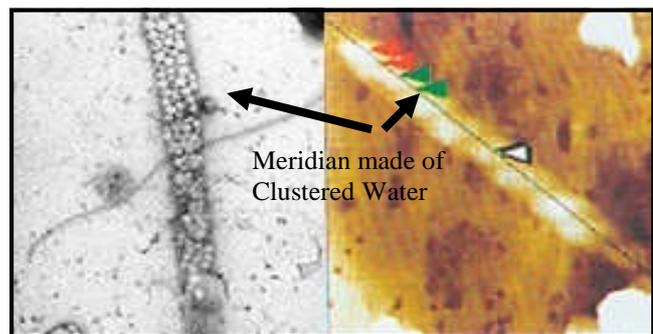

*Use Double Helix Water to Rejuvenate the
Chi Flow in Your Clients' Meridians.*

Use with your Arthritic, Diabetic &
Auto-immune Clients

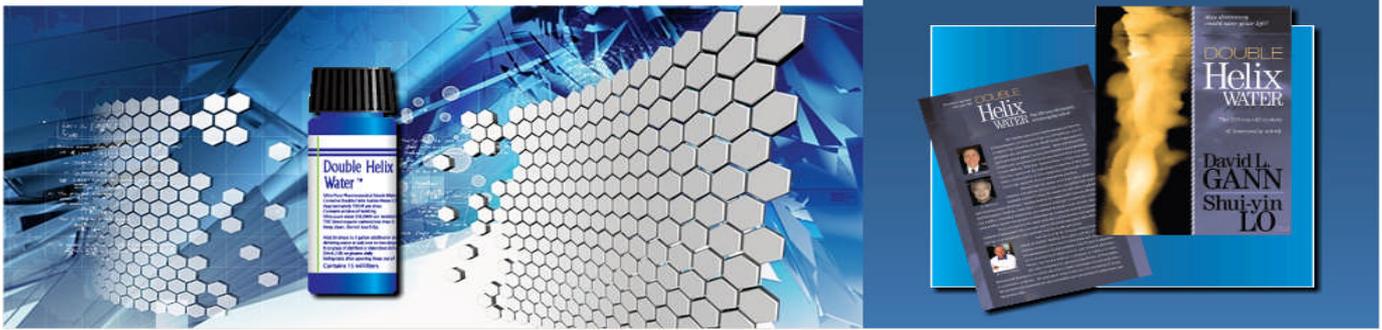

Arthritic hands before (left) and 20 minutes after drinking 6 drops of Double Helix Water in 8 oz. of distilled water. The red-orange heat color cools, which also means less inflammation. (This image is a part of a research project and no curative claims are made or intended.)

DHW Clusters May Solve the Mystery of
Acupuncture Meridians

The picture on the left was taken by a transmission electron microscope (Hitachi H660, 100 keV electron beam, 6,000X) on a chain of water clusters. The width of the chain had several clusters. The size of the small circular clusters inside the chain is about 0.3 micron in diameter. The picture on the right showed similar water clusters joining together one after another in a chain.

*Double-Helix Water, David Gann and Yin Lo. Ph.D., 2009, D and Y Publishing, Las Vegas Nevada
This book tells the story of how these two scientists serendipitously were led down the path of inquiry to this phenomenal discovery. The book is available on-line at KHT Systems.com

Health Care Practitioners Will Be Fascinated By The Following:

- for optimal health, was completely pure, natural and tastes good, would you be interested?
- *And if that “something” had the capacity to heal illnesses like diabetes, arthritis and other inflammations and diseases in the body, would that be a plus?*
- If you had access to the “something” that seemed as fantastic as the fabled “Fountain of Youth”, would you be interested in it for your patients?

Double-Helix Water is the name of that “something”. It is a completely unique, solid form of “water clusters” that has all of these properties and even more. You might think, “this sounds to good to be true” but it is true and you can have this “Something Special” today.

Dr. Shui Yin Lo

David Gann

C. Norman Shealy, MD, PhD. had this to say about Double-Helix Water: *“I had the privilege of testing some of their earliest clustered water and found statistically significant improvements in basic immune function.”* pg. ixx,*

So....What is Special about Double Helix Water

“Through word of mouth, we have been sought out and begged by people ranging from seriously ill to near death to let them have some of this water, and 80 percent of these people have either completely recovered from or are still recovering from, not just cancer, but a host of other so-called incurable illnesses, including Parkinson’s disease, diabetes, lupus and arthritis.”, pg. 60.*

“Did the Water Cure Them?”

Again, NO, they cured themselves; but this water must have had supplied some integral part of what they needed to build their own defenses.“, pg. 60.*

“So, the double-helix photo (on the front panel) must mean that the stable water cluster is not a drug, not a nutrient, **but a fundamental brick in the body** and somehow is linked directly with the body’s ability to heal”, pg. 60.*

Double-Helix Water[™]

By Shui-Yin Lo and David Gann....the story of discovery, see below to order.... only \$14.95 plus shipping

Rejuvenate the Chi Flow in Your Clients' Meridians

Theoretical physicist Dr. Shui-yin Lo, and his engineering research partner, David Gann, now release their groundbreaking research on a previously undiscovered molecular phase of water. Fifteen years in the making, this pioneering work, ***Double-Helix Water Has the 200-Year-Old Mystery of Homeopathy Been Solved?*** is a layman's manual of their research. Presented in a simplified and understandable manner, this book guides the reader through their work, making complex physics principles and calculations comprehensible to all. The reader is taken deep into the atomic level of the water molecule, complete with some remarkable photos, to view what Gann and Lo refer to as the *genesis phase* of water. They show that an undiscovered "state" or "phase" of water (but not ice, liquid or steam) exists and they believe that this "phase" may be the key to many of the body's inherent healing properties thus explaining many of the mysteries of alternative health practices. They demonstrate through rigorous scientific experimentation that water can form a solid particle at room temperature. The discovery of this particle then, begins to unravel the mystery behind the differences between *allopathic* and *homeopathic* medicine as we know it.

Gann and Lo's well-documented work sheds light on both sides of this fifty-year conflict. Laboratory experiments are explained in layman's terms, thereby allowing a person with no physics background to understand the mechanisms involved. The scientific papers are presented in the second section of the book, making the first section an easy and understandable read. Gann's uncomplicated writing style enables the reader to truly get a first glimpse at the vast potential uses of such a simple but astonishingly powerful discovery from the world's most abundant molecule, water.

The book includes an introduction by world-renowned neurosurgeon Dr. Norman Shealy. Shealy, founder of the American Holistic Medical Association, is considered one of the nation's leading research pioneers in developing safe and effective nonpharmaceutical health treatments. With over fifty-years of experience as an accomplished neurosurgeon and research physician, Shealy has been a medical consultant to leaders in every specialty, including the personal physicians of Presidents Kennedy and Eisenhower. His published works, as one of the United States' principal research authorities in alternative medicine, total

over 275 publications, including 22 books. At seventy-seven and in excellent health, he travels worldwide giving seminars and workshops to physicians, universities and laypersons alike.

Presented here is the Foreword to ***Double-Helix Water***, kindly written for the authors by C. Norman Shealy, MD, PhD, president, Holos Institutes of Health, Inc.; professor emeritus of energy medicine, Holos University Graduate Seminary; founding president, American Holistic Medical Association. *The Secret of Life has been the foundation of philosophy and medicine throughout history. The Chinese called it chi; the Japanese, qi; the Indians, prana; and Wilhelm Reich, orgone. Much of medicine before 1940 was rather pragmatic empirical practice with many errors. Since 1940 the bulk of modern medicine has been a takeover by the Pharmaco Mafia—my title for the pharmaceutical industry. Today Modern Medicine is at least the third leading cause of death in the United States (JAMA, July 2000). Drugs that have little justification and serious risks, called side effects, are added almost daily to the stream of offerings. Numerous brave souls question the current system, and yet it is THE SYSTEM rejecting and attacking viciously virtually every alternative. Homeopathy was introduced by Hahnemann when the mainstay of the medical profession was bloodletting, purging and leeches. Even then homeopathy was rejected by those who snobbishly considered themselves intellectually superior. Despite this rejection, homeopathy remains a major force in Europe and England. In the United States, early in the twentieth century, the American Medical Association, in collaboration with the Rockefeller Foundation, conspired to have Abraham Flexner produce his Report attacking everything except allopathic medicine, with its drugs and surgery. Half of all medical schools and hospitals were closed. Acupuncture, used in the U.S. since at least the 1850s, was abandoned. Homeopathy was excommunicated. Osteopathy was vigorously attacked, and chiropractic was even more viciously attacked until the AMA was finally defeated by the chiropractors in 1966. The remarkable pleomorphism theories and practices of Royal Rife were destroyed by the Czar of the AMA, Morris Fishbein, setting back for over sixty years the potential cure of cancer.*

The work of Georges Lakhovsky, George Crile and Harold Saxton Burr on the electrical foundation of life remains ignored. These three proved beyond any reasonable scientific doubt that the essence of life is indeed electrical. The chemistry and even the physical aspect of life are dependent upon the electrical matrix. But medicine has looked almost exclusively at the physical and chemical. Although life expectancy has increased over 50 percent in the past century, Dr. Thomas McKeown (The Role of Medicine) has emphasized that this

increase is the result of pasteurization of milk, chlorination of water, proper disposal of sewage and adequate protein and calories.

David and Yin have taken the concept of homeopathy into the twenty-first century with the most elegant experiments to date. Their demonstration of microscopic clusters in water is groundbreaking and revolutionary! Their purification of water, with the atmospheric purity described, places homeopathy on a scientifically valid foundation that is equal at least to the discovery of atomic energy. I had the privilege of testing some of the earliest clustered water and found statistically significant improvement in basic immune function. Their more refined products are even more exciting. Obviously further research is needed, as it has been with radiation for the past century. But we now have an equally exciting New Frontier of Science, infinitely safer and potentially radically more effective in redefining Life and Healing. Kudos, David and Yin! The world awaits the next step in the development of electrically and chemically pure homeopathy. Hahnemann would be as excited as I am to see the results of your work. You have made a great step forward in understanding the Secret of Life.

Order Form on the following page.

- The following prices are intended for certified or licensed health care practitioners. Fax or e-mail a copy of your professional license or certification to 951-652-5320 or to kht_replies@roadrunner.com
- Practitioners located in California without resale numbers will be charged 8.75 % state sales tax. Fax or e-mail a copy of your resale certificate.
- This offer is in effect while supplies last.

Two-Month Bottle Instructions:

4 drops in a 4-6 oz. glass of distilled water 2 times per day.

Practitioners who wish to provide DHWater to clients

The two month bottle is the same physical size as the one-month bottle. However, the concentration of clusters is greater. The new recommended dose is:

It is best to hold the water a few seconds beneath the tongue for maximum absorption. (Distilled water is available in most grocery stores. Do not get distilled water for babies as it has fluoride added) without carrying a clinic inventory, having credit card costs, doing additional bookkeeping, etc, should call us for more information---951-537-4920

The Following Practitioner Prices are Intended as an Introductory Offer.

DOUBLE HELIX WATER

Description/Special Pricing: The Following Practitioner Prices are intended as an Introductory Offer for certified or licensed health care practitioners only. The suggested retail price (SRP) to clients is \$80.00/ 2 month supply bottle. This offer is in effect while supplies last.

	Units	Intro Price	Total
2 bottle (4-month supply for 1 client)—Regular price \$160.00	2	\$99.00	
4 bottles (4-month supply for 2 clients)-Regular price \$320.00	4	\$188.00	
10 bottles (4-month supply for 5 clients)-Regular price \$800.00	10	\$435.00	
Book: Double Helix Water™ by David Gann and Shui Yin-Lo, Ph.D. Book shipping is \$9.95 plus \$2.00 for each additional book in the order. (No shipping fee if combined with a DHWater order)		\$14.95
