To Order

The Moxa Warmer is a cost effective method for providing safe, low cost self-treatment in your clinic or at home.

Application to Hand Points

Standard-Wall Plug Model

The Moxa Warmer is an innovative, new, acupoint warming device which provides the healing benefits of Moxa thermal therapy in homes or clinics. Administer safe treatments without smoke or odor. Use it alone or with herbs or Essential Oils.

Benefits:

- Saves clinician time
- Client can self-administer moxa treatments
- Eliminates blisters and burns
- Eliminates unwanted smoke and odor
- Safe for Self-treatments at home
- Apply to body, face, scalp, feet, ears and hands.
- Provides far-infrared stimulation
- Provides acupressure stimulation

Features:

- Sturdy Design for acupressure
- Large rounded copper tip designed for comfort
- Computer chip controls temperature at 118-119 degrees F.
 - Comfortable on Face, Ear, and Scalp
 - Will not ignite clothing, bedding or paper
 - Safe for diabetics and self-treatments at home.
 - Insures optimal, consistent temperature
- Moxa Salve, herbs and essential oils can be applied to the tip for deep penetration of each acupoint.

Two Models:

- **Standard** wall plug-in model eliminates dead battery syndrome! Internal computer chip maintains temperatures of 118 to 119 degrees F.
- **Battery** computer chip maintains temperatures of 118 to 119 degrees F. The Nickel-Cadmium battery holds a charge for 6 to 8 hours. Requires overnight re-charging.
