

NES® Body-Field Scanning

for Optimal Health

Obtain Even Better Clinical Results: It's Simple, Low-Cost and Effective

NES Health® (Nutri-Energetics Systems®) offers a state of the art, research based system designed to evaluate the human body-field (HBF) and make adjustments resulting in an increased sense of well-being. You can easily integrate NES into your clinic whether you practice allopathic, chiropractic, integrative or complementary/alternative medicine.

The complete NES approach is composed of interlocking pieces to increase your client's level of wellness:

1. ProVision human body-field scanning hardware and software
2. Infoceuticals® of body-field corrective information patterns imbedded in ingestible liquid form
3. NEStrition® is composed of natural herbal supplements with imprinted energetic information to support specialized body functions
4. MiHealth device designed to input corrective information through direct contact with the body via a small hand held device
5. Certification training to understand and apply the NES approach
6. Professional, live support available to all practitioners

Human Body Field Information and Energy

We know that our well-being depends on the correct operation of our biochemistry and that the human-body field serves as the master control system for physiological function. Distortions in the body-field cause disruptions in the information and energy flow to the body, which manifests as symptoms. [\(Click here for details\)](#)

Body Field Scan

It's so easy. Simply place the client's hand on the scanner for 20 seconds. The scan evaluates 145 parameters of the highly complex body field. The internal software then prescribes corrective NES Infoceuticals. [\(Click here for details\)](#)

Infoceuticals

NES Infoceuticals are preparations of distilled water with trace minerals encoded with the appropriate information designed to restore the body-field and results in efficient physiology, balanced emotions and clear mental functions. NES Infoceuticals are compatible with pharmaceuticals, food and natural remedies.

The NES Founder: Professor Peter Fraser

The creator of NES developed the means to assess the human body-field functions and identified distortions that affect information, energy flow and transfer. He further determined how to correct these distortions, in the form of liquid Infoceuticals. These liquids contain imprinted information that enables the field and therefore the bio-chemical levels to function more effectively.

How Does the Clinician Use the NES System?

- 1) Simply install software and plug in hand-held scanner.
- 2) The client places their hand on the scanner for
- 3) 20 seconds.
- 4) The results are graphically presented in an easy to understand format which prescribes Infoceutical protocols.
- 5) Simply print these instructions for your client and provide them with a month's supply of low-cost Infoceuticals.
- 6) The typical Infoceutical usage is 3 or 4 different premade formulations of 6 to 28 drops in liquid/day.

- 7) After 3 weeks to a month, rescan and prescribe a new set of Infoceuticals.

How Long Does it Take to Experience Changes?

Most clients report improvements almost immediately while some may take months to notice a significant change. It is generally recommended that clients be willing to commit to a minimum of a 6 month program. Re-scanning is done approximately once per month. As with any complementary/holistic therapy, the time it takes to experience improvements depends on many factors, including the severity of the problems, perceptions, environment and personal situations. Research at NES has found that the body has an orderly sequence in which changes take place. The NES approach is designed to follow that sequence.

What Issues has NES Helped to Relieve?

**Emotional &
Physical
Resiliency:**

Provides relief from, or improvements in the symptoms of emotional and physical issues. Clients experience more stamina, improved sleep, sharper mental focus; the ability to stay positive, cope better with stress and life challenges; enhanced even-temperedness and the ability to relax.

Is NES Compatible with Pharmaceuticals and Natural Therapies?

Infoceuticals are totally safe and compatible with any foods, pharmaceuticals and nutritional supplements. They can be taken in any liquid.

Coming in the Near Future:

NEStrition: A range of carefully balanced food supplements enhanced with bio-information using NES proprietary imprinting technology. To attain a greater sense of wellness or to maintain current good health, our metabolism, immune system and other physical systems need to be working properly. That means our bodies need to receive the proper nutritional building blocks to be able to build, repair and maintain itself. NEStrition provides high-quality supplements that support the holistic nature of the body. ([Click here for details](#))

Mi Health: MiHealth is combination of devices and treatment options that are add-ons to the main NES Provision Software which can **read and change the energy and information of the body**. It combines **8 cutting-edge technologies** that are explained in detail. ([Click here](#))

How Do You Get Certified in the NES Approach?

Our Practitioner Training programs are designed to ensure clinical success through the application of bioenergetic and informational healthcare. Learn from online training modules plus attend a 2-3 day on-site training seminar. Technical support and professional practitioners are available for free consultation. There are also online webinars where experienced practitioners discuss case studies.

Summary Overview of NES Health

At the Core of the NES Health approach to achieving and maintaining optimal mind-body-emotional well-being is the following:

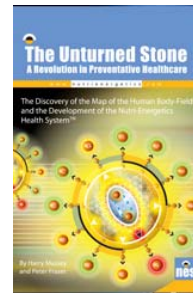

- Research conducted over the past 25 years that indicates that the human body-field has a major influence on the efficient operation of our biochemistry and physiology.
- Software that is sophisticated, but user friendly, that determines what aspects of the client's field requires correction.
- Energetic "Infoceuticals" correct the identified body-field distortions.
- Additional components (NEStrition and MiHealth) facilitate achieving and maintaining optimal well-being.
- This approach:
 - *Is appropriate and safe for all ages;*
 - *Has high client compliance,*
 - *Is economical for the client.*
 - *Has a very high benefit to cost ratio*
 - *Takes very little time to administer;*
 - *Has great technical support world wide*

- Offers comprehensive training
- Is compatible with all other clinical practices.
- Is unique in the world. There is no other approach remotely close to this one.

The New Science of Information as Medicine

by Peter H. Fraser and Harry Massey with Joan Parisi Wilcox
416 pages

A revolutionary system that reestablishes the proper flow of information to the body's energetic fields to promote health, this book describes the details of the development and theory of the NES approach.

- Presents a new integrative model of the energetic physiology of the human body (the human body-field) and its influence on health
- Shows that a root cause of disease is due to information blockages in the body-field
- Introduces Infoceuticals, liquid remedies that help the human body-field process vital information to engage the physical body's self-healing abilities
