## **Point Locators**

Econo No longer available

3.55 x 3/16 in. dia.

Brass with a small ball on each end.

Standard

3.75 x 3/16 in. dia.

Slim, high quality stainless steel with a large and small ball tips.

**Premium** 

4 x 3/8 in.

High quality Stainless steel locator with 5 tips for use on the fingers, hand, foot, plus a spring loaded probe for auricular points. The five point tips are nested on the device so are always available.

**Point Mate** 

## **Electronic Acu-Point Locator**

The Point Mate allows the practitioner to lightly scan the area to find the active corresponding points without pressure, which can cause client discomfort. Operates on a singe 9V battery

Skin Marker

**Point Marking Pen** 

5 x 3/8 in.

Non-toxic fine point marking pens insure that pellets and needles are placed exactly on the corresponding points.
