Transformed Cerra Water is Smooth as Silk & Tastes Great

- Transforms Acid to Alkaline
- Makes Super Hydrating Tiny Clusters
- Converts to Anti-Oxidant Water
- Beats Current \$2500 Machines
- No Electricity-No Harmful EMF's

Test your water to determine its pH.

Your water should be on the Alkaline side of the scale.

When you drink water, it may not absorb into cells efficiently due to large clustered water molecules. Large clusters leave you feeling bloated or the water is not utilized by the body.

Toxic chemicals are everywhere. We need all the Anti-Oxidant power we can get to eliminate free radical damage to our bodies. Cerra Water gives you all of this plus great taste. Cooking

More Benefits:

- *The **Anti Oxidant** effect comes from revolutionary ceramic technology in contact with the water.*
- *Is 6 times **more hydrating** than tap or bottled water*
- *Has great **Anti-Aging** effects through free radical conversion*
- ***Reduces pain** and silent inflammation*
- ***Faster exercise recovery** and rehydrating*
- ***Detoxifies** your systems*
- *Has **NSF-International water certification**.*
- *The Cerra comes ready to use with 2 extra filters. Filters last from 3 to 5 months depending on the usage and water mineral hardness (soft is best)*
